

BECOME AN **IRONRIDGE CERTIFIED** SOLAR INSTALLER

ON-DEMAND TRAINING

HANDS-ON TRAINING

IRONRIDGE CERTIFIED

ON-DEMAND TRAINING

Whether you're new to the solar industry, training your crew, or renewing your credentials, the IronRidge Installer Certification Program was built for you.

Our field training team, who've trained thousands of installers over the past decade, have created a no-nonsense, on-demand course for composition shingle, pitched roof installs. More content is currently in development.

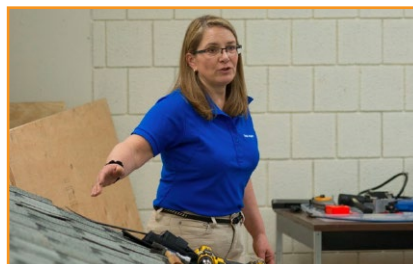

Create a profile to track your progress, complete an exam, earn badges, and access free gear and NABCEP certificates.

HANDS-ON TRAINING

Join our in-person, hands-on events offered around the U.S. to get fully certified. Field trainers will teach skills and best practices, to increase confidence in using tools of the trade and ensure clean and quality installs.

Installers earn their credential upon completion of the program. Recipients get a physical certificate (suitable for framing) as well as complimentary gear for training.

IRONRIDGE CERTIFIED

Certified installers will be added to our online registry, get early notifications about new products, and gain access to free demo kits and sales tools.

Training for comp-shingle pitched roofs is available. As new courses are released, you can stay in contact to update credentials and earn badges and NABCEP credits.
